Toagosei Co., Ltd.

Increase in Production Capacity of Caustic Potash

Toagosei Co., Ltd. has decided to increase its production capacity of caustic potash.

Caustic potash is widely used as a raw material in liquid detergents, pharmaceuticals, cosmetics, electronic parts and other products. The Company will increase its production capacity to stably supply caustic potash in anticipation of an increase in demand for it in the future.

Content of This Plan

- (1) Location: Nagoya Plant
- (2) Applicable products: Caustic potash liquid and caustic potash flakes
- (3) Amount of investment: Approx. 1.4 billion yen
- (4) Scheduled completion: Spring of 2022

The Company will aim to expand the size of its business and to enhance its profitability by also making rationalized investment in filling facilities and other areas in line with this plan.
